

2023 Emerging Priorities Program

Commonwealth Govt Department of Education

***“Preparing for Industry 5.0 and beyond in light of COVID19 -
facilitating the cradle-to-career life cycle”***

Statistics, Systems thinking, Sustainability & STEM (SSSS):

- ✓ ***are core to emerging workforce environments and needs***
- ✓ ***support national curriculum learning areas and outcomes,***
- ✓ ***support general capabilities and cross-curriculum priorities***
- ✗ ***are less well known to educators and students***

This 2023 national initiative will involve free:

- ***Online interactive teacher professional learning workshops***
- ***Online interactive student workshops – practical implementation & career opportunities***
- ***Two national student competitions***

which develop SSSS skills core to the National Curriculum, Industry 5.0 and beyond and positively impacts the attitudes, aspirations & abilities of educators & the future workforce

Addresses and supports:

- ✓ ***Key learning Areas***
- ✓ ***General Capabilities***
- ✓ ***Cross curriculum priorities***

***This initiative will be rolled out across Australia in 2023 by
Emeritus Professor Tim Roberts AM and Professor Peter Howley***

***We are seeking interest from Teachers and Schools to
participate in the program.***
